Chennai [India ,Tamil Nadu]

## OBJECTIVE

To pursue a career in a dynamic workplace ,have insight on strengths and responsibilities and recursively revamp my skills.

## EDUCATION

**D.A.V Senior Secondary School ,Chennai [India ,Tamil Nadu]**
**SECONDARY(HIGH SCHOOL) [CBSE]**
10TH GRADE - 8.8 CGPA  [GENERAL STREAM] - APRIL - 2017
**SENIOR SECONDARY [CBSE]**
12TH GRADE- 92% [COMPUTER SCIENCE STREAM]  - APRIL - 2019

---

**Thiagarajar College of Engineering , Madurai [India ,Tamil Nadu]**
**BACHELORS OF ENGG [UG]**
8.98/10 CGPA [Electronics and Communication Engg. ]. APRIL - 2023

## EXPERIENCE

**Web Development :**
**1 Month of Angular internship training program on Circular Edge Solution, Chennai.**
**Angular - [Crud Applications] Reactive and template-driven forms  using bootstrap, json server.**
I developed a basic employee management system that accepts input data from the user with input field validations and the details are appended to the api json server.
Users are allowed to add new employee data or edit and delete the details of existing by fetching from the json server. This model implicates the employee management system of an organization. This program gave me hands-on experience on angular framework [ html,css and typescript modules ].

**DevOps :**
I created VM's (CentOS , Ubuntu) bootstrapped using Vagrant cloud images on GitBash CLI .Spined up docker containers using OCI image and configured network and storage with docker compose. Created a kubernetes node cluster using kubectl pods by defining metrics-server, stateful-set and cluster role for managing services. I have hands-on experience in Ansible network automation and Jenkins CI/CD pipeline.

## TECHNICAL SKILLS

C++ , Python , MySql , Angular , Linux , Docker , Kubernetes , Ansible , Git , Jenkins

## AREA OF INTEREST

Networking , DevOps , Web Development
